Provides constant flow of evenly mixed soils, chemicals and fertilizers

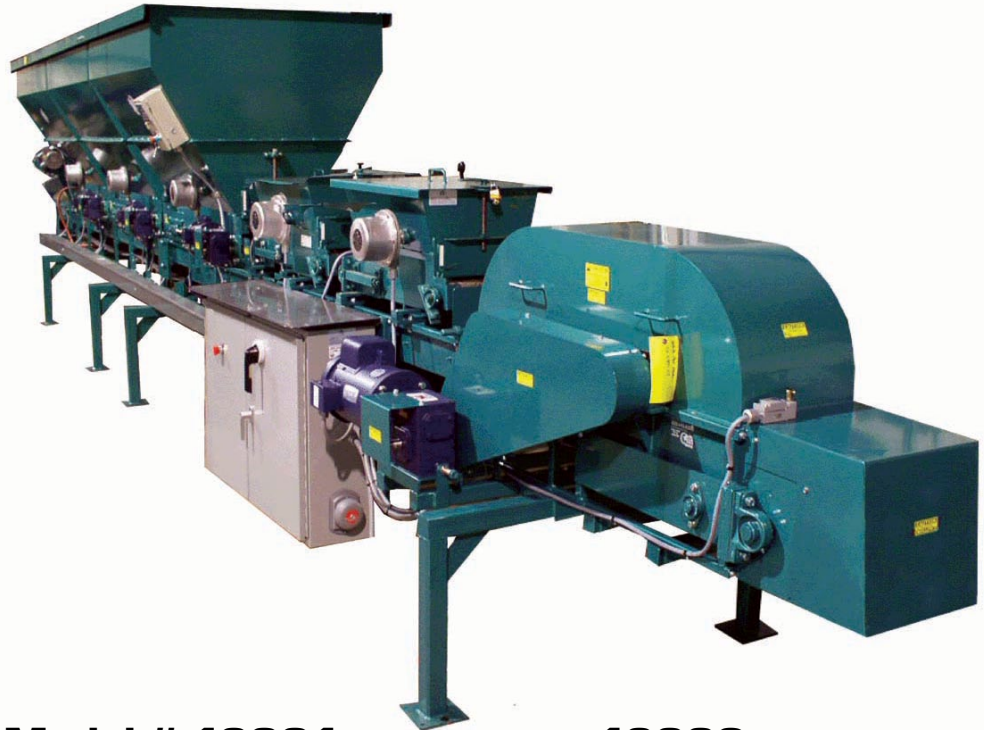

Agitators for uniform material flow

A proud member of the BouldinCorp™ Family

# MixMaker™ 15

## Mixing System

### Model # 12001 (single phase) 12003 (three phase)

The competitive grower needs on-demand delivery of specialized mixed soil to meet production goals. The MixMaker 15 has the ability to meet these requirements.

The MixMaker 15 Mixing System provides a constant flow of evenly mixed soil, including chemicals and fertilizers. The unique FloThru™ Mixing Head ensures that every sampling of soil has the proper ratio of nutrients called for in the formula.

This unit is capable of up to 15 cubic yards per hour of consistently mixed material such as peat, bark, sand, and other materials found in plug or potting mix. The MixMaker 15 features three Bulk Hoppers, 2 with lengthwise agitators, 2 chemical boxes (1 low volume), with auto water, audible alarm and automatic system shutdown for empty hoppers.

## Specifications

Power	220 V/ Single or three phase/ 50 or 60 Hz
