# SPD Pot Dispenser

## Model # 13341

The SPD Pot Dispenser is a new generation of labor saving automation. Designed to simplify your work and increase productivity. Pots are loaded in stacks into the carry rack and separated one by one with precision placement into individual shuttle trays. The SPDS is capable of running up to 1,000 Trays per hour.

Benefits- Eliminates need to pre-fill shuttle trays thus saving space, reduces labor costs, changeover is quick and easy, multiple tray configurations are stored in PLC.

### Features:

- PLC controls with servo driven actuator
- Linear movement for precise positioning
- Variable speed to match with production equipment
- Quick change head for different pot sizes

Quick-attach system

Control Panel

## Specifications

Power	220V/ single phase/ 10 amp
Dimensions	105"L x 26"W x 67"H
Production	Up to 1000 trays per hour
Weight:	450 lbs
Options:	4" casters
Portability:	Stationary

Made in the USA
