Works with Incline
Conveyor and Fluffer

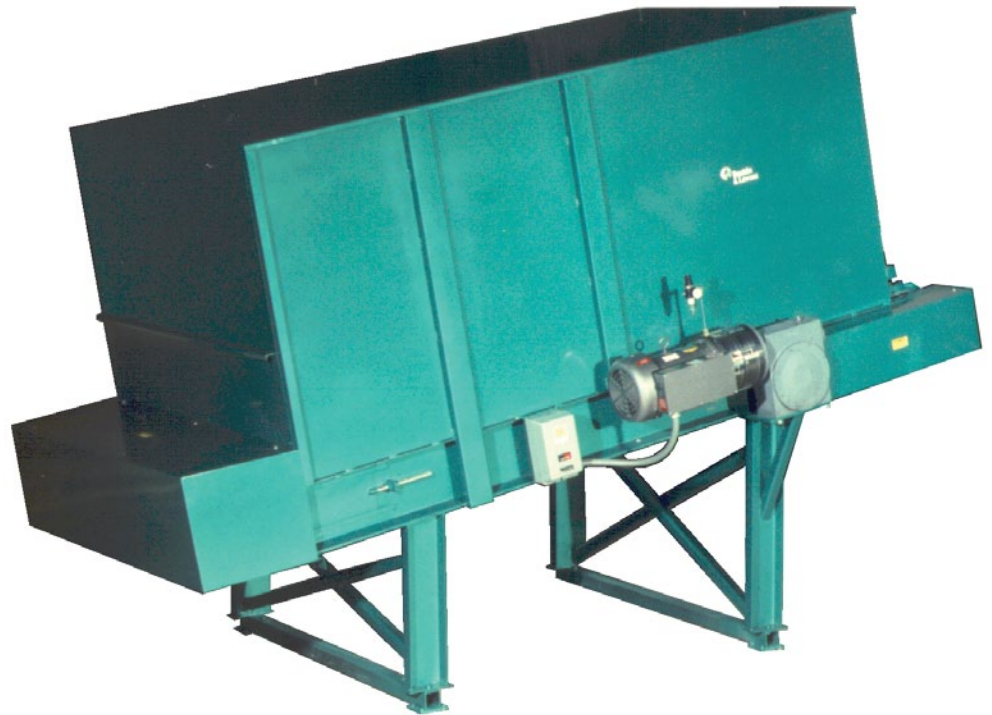

Live walking floor
assures consistent flow
of material

A proud member of the
BouldinCorp™ Family

PowerBuster™

Model # 16560

The PowerBuster is designed to easily load and process multiple or single peat moss and pre-mixed compressed bales (55- 110 and 135 cubic foot bales)

Features include a 5 HP, 220V electric motor with starter and controls and a live walking floor that meters out consistent amounts of processed material. The PowerBuster can also be used with an Incline or Fluffer misting system and bring the bale to the proper consistency needed for plant production.
