 BouldinCorp™ Family**

Forestry Seeder

Model # 18200

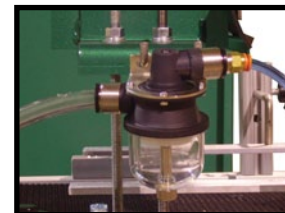

The Forestry Seeder will sow a wide variety of seed types into most standard nursery and seeding trays. This patented seeder is designed for the grower who demands speed and accuracy when sowing small, difficult, and odd-shaped seeds.

The Forestry Seeder will give you increased sowing accuracy, simplicity of operation, quick change-over, and low maintenance. This unit features optional multi - row seeder and an illuminated dust separation seed pan that helps separate dust from seeds.

Linear action seeding increases accuracy, with an adjustable vibrator, vacuum controls, and large capacity top coating unit for uniform covering of finished trays. PLC controls allow quick and easy change-overs. Eight sets of various sized needles are included to accommodate multiple seed sizes.

Air regulator and water separation

Vacuum seed recovery unit

Specifications

Power	110V/ single phase	Dimensions	60"L x 36"W x 48"H
Production	Up to 300 trays per hour	Weight	Approximately 382 lbs

Made in the USA
