Pot Staging & Buffering System

Staging and buffering conveyor allows production lines to run continuously while accumulating containers, pot, hanging baskets on a staging/buffer belt system. Accommodates pot diameters from 4" to 18" including flats and shuttle trays. Containers can be picked up at the side or end of conveyor. PLC touchscreen control allows for programmable speed and spacing. Custom belt sizes to match your requirements. Process can be reversed for spacing and shipping.

Features:

- PLC touchscreen included.
- 10' accumulation belt.
- 20' x 7' staging/buffering conveyor
- Variable speed

Options:

- Staging conveyor size can be custom made.
- Remote stop function
- Portability

Made in the USA
