Adjustable soil gate

Power pot transfer

 A proud member of the
BouldinCorp™ Family

EP 2200

Model # 13389

The EP 2200 fills and drills hanging baskets and patio planters up to 7 gallon. Changeover from one pot size to another is quick and simple, no pot holders required. The EP 2200 can be used as a standard flat filler, with optional power sweeps and rotary brush, allowing you to fill your flats and cell trays for added flexibility.

- 16" clearance for tall pots
- extended auger style soil return for the heaviest soil filling conditions
- no spillage.

Additional standard options include: direct drive gearbox for low maintenance, one crank handle adjustment for speedy change-over; swing-out brush assembly for easy adjustment and an adjustable soil diverter to match tray and pot width up to 18" wide 16" tall. This machine offers unrivaled performance, quality and specification.
