PlugPlanter

Transplanting Made Easy

The B&L PlugPlanter M or S model offers fast accurate planting, quick change-over and CNC operating system for one of the easiest, quickest setups available. Quick-change grippers for easily switching plug size and push-up pins to ensure soft or young plugs are extracted and planted without damage. The PlugPlanter gives you flexibility to use your plug tray widthwise or lengthwise on the same machine to match container and plug tray count in the most efficient way.

Features:

- Belt or independent gripper movement
- Available from 12 - 32 grippers
- Servo or manual driven gripper
- User friendly touch-screen control
- CNC control system
- Electronic planting depth and plug tray height adjustment

Finish Containers:

Flats, shuttle trays, and individual pots 6" - 10" hanging basket

Plug Trays:

From 512 to 50 cell trays.

Max Gripper Spread:

- 12 gripper 72"
- 16 gripper 72"
- 24 gripper 72"
- 32 gripper 96"

Transplant Speed :

- 12 gripper up to 12,000 plugs/hour **
- 16 gripper up to 16,400 plugs/hour **
- 24 gripper up to 24,000 plugs/hour **
- 32 gripper up to 32,500 plugs/hour **

Electrical Requirements:

220 VAC, single or three phase

**Example: rate depends on plug tray and finish container specs.

Made in the USA
