Watering System

The versatile Pro Line Watering System waters both flats and pots. This system is designed to fit seamlessly with existing seeding, potting or transplanting lines. With a wide variety of nozzles and other options, this system will accommodate all of your watering needs.

Features & Options

- The Pro Line Watering System is powered by 110v.
- "T" bars are standard: optional nozzles
- Used as permanent fixture or easily moved out of the way with optional 4" casters.
- Optional 5' or 10' drainage roller conveyor that easily attaches without the use of tools.
- Dosatron®: Injector by request

Made in the USA
